GIRL SCOUT BADGE TRACKER

Matt Eck(DM),Mike Glosecki(QC),Nate Martz(OP),Ryan Schroeder(SM)

Client: Jennifer Melton, GSA

Description:

Web-based application to track Troop:
- Badges, Journeys, and Bridging requirements
- Finances
- Events
- Awards
- Scout information

Semi-Agile process:
- A Scrum-like process with ten two-week sprints
- 580 estimated hours

Tools

Exit Strategy
- Fall 2015: basic webpages built with DB interactions, and a Database with all domain info loaded.
- Spring 2016: fully implemented product

My Troop: displays all scouts within troop associated with authorized user and displays an overview of troop information/accomplishments.

Scout Records: displays all badges, awards events and finances related to a specific scout.

Badge Overview/Update: lists all badges available to the scouts organized by rank. The user may update completed requirements.

Shopping List: creates a shopping list of all the badges the leader should purchase from the scout shop based on badges earned.
